## Play Summary

*Together Again at Christmas* is a heartwarming original story that blends the familiar sounds with the timeless themes of family, faith, and forgiveness. Set during the Christmas season, the story follows three generations gathered under one roof, where old wounds and long-held secrets resurface amid the holiday cheer.

Through laughter, love, and the power of music, the family navigates grief, misunderstanding, and reconciliation, discovering that the true spirit of Christmas isn't found under the tree—it's found in each other. Featuring soulful reinterpretations of classic hits, this production is a festive celebration of love, legacy, and the joy of coming home.

# About the Playwright

**Tasha Smith** is a lifelong student of the arts whose journey began in the choir stands, where she sang with both sass and skill from a young age. Her resume includes performances with award-winning choirs and featured solos that have taken her from coast to coast and across the globe—including the prestigious stage of Carnegie Hall in New York and alongside countless musical legends.

Locally, Tasha has built a reputation as a sought-after Musical Director, lending her gifts to productions across Georgia for multiple directors and theater groups. In 2020, she made her directorial debut with *Sounds That Inspire: Gospel to Jazz* at The Academy Theatre in Hapeville, GA—an original historical anthology tracing the evolution of music from the slave fields to the jazz clubs of Harlem. She also recently stepped into the spotlight as Mama Morton in the Fayetteville Playhouse production of *Chicago*.

As a born storyteller with music as her muse, Tasha writes from the intersection of faith, family, and art. *Together Again at Christmas* is a deeply personal work that combines the most important aspects of her life—her faith in God, her passion for genuine healing and healthy relationships, her lifelong love of the arts, and her joy in celebrating Christmas. Through her work, she invites audiences to laugh, reflect, and discover how music and memory can transform the heart.
